

REDEFINING ENTERPRISE CLOUD TRANSFORMATION WITH PRODUCTION-READY CLOUD FOUNDATION ACCELERATORS

GAIN RAPID ACCESS TO THE INFRASTRUCTURE-AS-CODE (IAC) LIBRARY, KUBERNETES DEPLOYMENT, AND EASE YOUR WAY UP THE DEVOPS JOURNEY IN 6 WEEKS AT \$40,000*

Build consistent, fully secure cloud infrastructure & continuous DevOps foundations with our battle-tested solution accelerators. Rapidly UP an entire production environment with Kubernetes experience to deploy your application workloads in a matter of minutes

Key Activities:

- Understand current cloud environment and transformation needs
- Set up accelerator modules for repetitive code & deployment patterns
- Automate redundant tasks and build end to end CI/CD pipelines for application build & deployment
- Build configuration management processes to consistently deploy applications with the same set of DevOps tools
- Create reports/dashboards to maintain logs, metrics, and traces in a single pane

Engagement Outcome:

- Production ready & secured cloud & Kubernetes platform with very minimal DevOps effort
- Rapid release velocity for feature delivery
- No Kubernetes operational overhead

24X7 Value Guaranteed!

Accelerate Cloud migration & Kubernetes adoption to deploy production grade workload in minutes with our 'GRAVITY' self-service platform

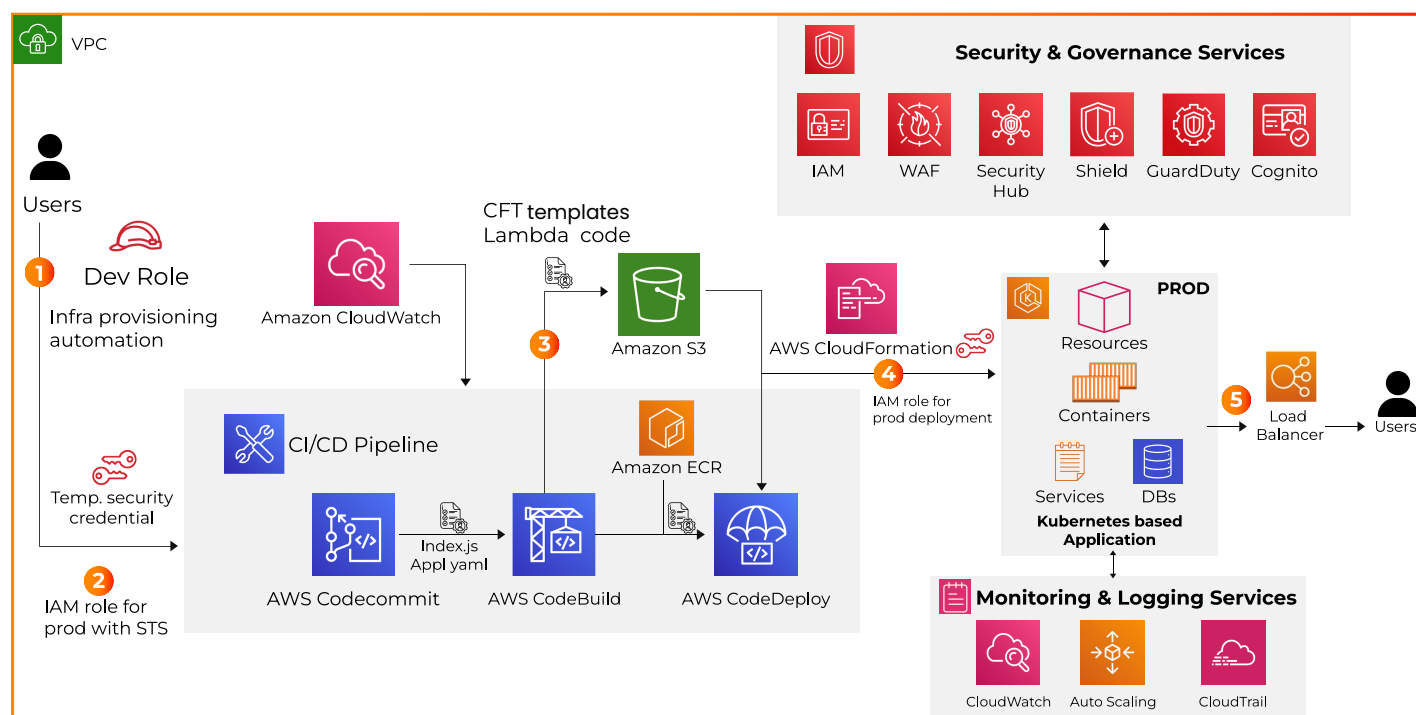

Special Offer:

2 weeks trial period to experience our services offering with a FREE POC, Access to reusable scripts & templates, On-call data architect, Foundational Infrastructure Baseline setup for data services**

*Scope, cost and timeframe is subject to review during the discovery phase

**On-call SME efforts based on the engagement need

Our Reference Architecture

Value Levers:

- Kubernetes & cloud migration in minutes, saving upto 70% of manual DevOps effort-time
- Up to 80% improved developer productivity with self service Kubernetes experience
- 40% improved cloud resource utilization with Auto Scaling
- Cost optimization of upto 60% with reduced DevOps overhead

Customer Contribution:

- Current application inventory
- Cloud architecture consulting (prerequisite). Access to consulting phase documents before kick-off
- Provide admin access to cloud environment & services
